WORK EXPERIENCE

Software Engineering Consultant

Credera, Denver CO

JULY 2019 – PRESENT

- Delivered custom technical solutions to solve our client's toughest challenges
- Architected and developed log monitoring solution for Fortune-150 restaurant to provide real-time troubleshooting capabilities. Designed a plan to automatically deploy to hundreds of restaurants leveraging client's existing technical systems
- Created automated integration test suite for a new microservice, working with multiple engineering teams to determine what services were coupled
- Joined a client's team as a front-end developer using Angular to improve velocity for an upcoming release
- Company Development: Recruiting, Sustainability Committee, Innovation team

Software Engineering Intern

Seller Labs, Athens GA

MAY 2018 – AUG 2018

- Created a full-stack web application with React and Springboot used to report 4 groups of customer subscription metrics for 5 products
- Developed a Java worker used to collect and analyze 5,000+ events from Stripe each week, and insert the groomed data into a MySQL database
- Gained experience with APIs, databases, and Agile development

Web Development Intern

Roundtable Development, Athens GA

JAN 2017 – JUNE 2017

- Built a Ruby on Rails web application for Four Athens using Bootstrap on the front-end

PROJECTS

Co-Founder

Café au Chain

JAN 2018 – AUG 2018

- Won 2nd place in the UGA Idea Accelerator (Spring 2018)
- Tested a blockchain startup for specialty coffee supply chain
- Led 40+ customer discovery interviews to drive product development
